The law related to computer crime is changing very quickly . Modern criminals are using computers to help them commit crimes like identity theft and to make it easier to commit old crimes like theft and fraud . In recent years , computer crime has increased as the number of people using the Internet to buy things or to access their bank accounts has grown . This new type of business has attracted techno-criminals who order goods without paying , or break into the computer systems of businesses and move money to their own account or send viruses which can seriously damage computers and the information they contain . These viruses can affect millions of people worldwide . Criminals can use the Internet to plan crimes and pass on confidential information more easily than meetings or telephone conversations . Computers allow criminals access to millions of people whom they may persuade to pay for something worthless

Syria is one of 200 countries in the world that agrees to follow the laws of the Geneva Convention . The agreement is important because during war a country might need help from neutral organisations to care for the wounded . The Red Crescent is one of the organisations that provides aid during times of war . It also helps injured people during peacetime , and you may have seen ambulances with the Red Crescent Symbol in the street . Countries who follow the laws of the Geneva Convention must not attack civilians , and they are not allowed to fight someone who is already hurt . It is illegal to ignore these rules , and a country found guilty of committing war crimes will be tried in a court of law and can be severely punished . All soldiers , civilians and prisoners may receive medical help from doctors and nurses . They can be taken to hospital without being attacked . Food can also be given to people involved in a conflict .
