3. A good citizen is always ready to serve his country and die for it.
4. A good citizen is always ready to serve his country and die for her.

*They really react differently to them.*

*Read the following passage then answer the questions:*

In most countries, men usually have heart diseases more than women do. Doctors say that heart diseases are related to daily life pressure, cares of jobs, daily lifestyle and the type of food. Although people may pass by troubles of the same degree and kind, Perhaps, men suffer much more because they do not cry enough when they are under the pressure of a certain problem. Men all over the world, think that they are supposed to be strong, crying; however, shows their inner weakness. Scientists say that man's body produces various multi-functional forms of tears; although these tears happen due to a chemical process, they differ in their functions. One kind does the function of cleaning out the eyes from the dirt regularly; this will consequently support their ability to fight a possible infection by any eye disease, the other protects the eyes against any other unfavorable visitors to enter them. On the other hand, tears sometimes warn man that his eyes are exhausted after a long stay in front of the screen of a computer and the TV, reading too much and being exposed to light or heat. But when man cries, because of strong feelings or some kind of mood, the result would be producing tears with a new function. In this case, tears, in fact, stand for a language that expresses hidden feelings and at the same time play an important role in making man feel at ease and comfortable. In this process, our eyes are getting rid of some poisonous chemicals that may hurt them; on the other hand, the blood produces positive chemicals to save man from depression. Therefore, it is unlikely that anyone, who manages to deal with a hard situation by freeing his tears, will suffer from any bad effects on his heart.

*Choose the correct answer from a, b, c, or d:*

1. How far do people react to the troubles of the same degree and kind?
  - a. rather the same
  - b. almost identical
  - c. exactly the same
  - d. not exactly the same
