I live in a small town in the south of Britain. I go to a school next to my house. There are many places to go in the town. In the north, there is a museum where you can find old things. Between the museum and the post office there is a cinema where you can see new films. We usually go to the market in the east to buy food and presents. The town has a beautiful park where people can walk and relax. There is a library behind the park. I like living here because it is very calm and the people are friendly.
