A. Listening

1 Listen and circle the correct answer from a, b, c or d.

1. Non-renewable energy are things like coal, and oil.
a. oxygen b. water c. gas d. copper
2. Fossil fuels are burned in
3. Fossil fuels are used to make homes and buildings
4. Fossil fuels are fuels.

2 Listen and complete.

1. A has very little water.
2. An environment is noisy and has a lot of traffic.
3. A environment has lots of fields, farms, and villages.
4. A environment is very high and difficult to travel around.

B. Reading

3 Read and complete the dialogue with the words from the box.

plastic - picking up - pollution - leaving

Waleed : What are you doing, Laila ?

Laila : I'm reading an article about (1) on Mount Everest.

Waleed : Oh! It's great.

Laila : Yeah ! People are collecting (2) bags, food packets, and bottles.

Waleed : What else ?

Laila : Those people are (3) old tents, boots and clothes that the climbers have left.

Waleed : They're amazing.

Laila : I agree ! They are helping to keep the environment clean. They aren't leaving any litter on the mountain.

4 Read the following text and answer the questions below.

Kárahnjúkar is a hydropower plant in eastern Iceland. The hydropower plant is the largest power plant in Iceland. It took five years to build, from 2003 to 2007. Five dams were built across two rivers. This created three large reservoirs of water. Water from the reservoirs travels through 73 kilometers of underground water tunnels. Then it goes down a deep tunnel to the underground power station. The Kárahnjúkar Dam is the largest of the five dams. It is 193 meters high and 730 meters long. It generates more than 690,000 kilowatts of power a year. The power isn't used to heat homes. It is used for an industrial metal plant.

A. Choose the correct answer from a, b, c or d :

1. The text is about

a. geothermal energy	b. hydroelectricity
c. tidal energy	d. electrical energy
2. Five dams were built across rivers.

a. five	b. three	c. four	d. two
---------	----------	---------	--------

B. Answer the following questions :

3. Where is the Kárahnjúkar hydropower plant ?
.....
4. How many dams are there ?
.....

5 The reader

A Read and write T (True) or F (False).

plastic - big - Valley - gold

Ghada : What is Tutankhamun's mask made of ?

Hager : It's made of (1)

Ghada : How (2) is it ?

Hager : It's 54 cm tall.

Ghada : How old is it ?

Hager : It's over 3,000 years old.

Ghada : Where is Tutankhamun's mask ?

Hager : It is in the (3) of the Kings.

4 Read the following text and answer the questions below.

The Ancient Egyptians were able to farm the land because of the River Nile. Every year, the Nile flooded during the flooding season. The Egyptians couldn't farm the land because the fields were full of water. The flooding season lasted from June to September. After the flood water went away, the soil was fertile and good for farming. Then comes the growing season. It lasted from October to February. During this time, farmers planted their crops. They dug canals to carry water from the river to the fields. The third season is called harvesting season. During this time, farmers cut and stored their crops. It lasted from March to May.

A. Choose the correct answer from a, b, c or d :

1. After the flood water went away, the was fertile.
 a. soil b. sand c. flower d. beach
2. dug canals to carry water from the river to the fields.
 a. Archaeologists b. Engineers c. Farmers d. Doctors

B. Answer the following questions :

3. Why couldn't farmers plant crops during the flooding season ?

4. How long was the growing season ?

Ahmed : Hello, Maged !

Maged : Hello, Ahmed ! I want to ask you some questions.

Ahmed : Here you are.

Maged : Which (1) has very little water ?

Ahmed : A desert. It is very dry.

Maged : Which environment has beaches, (2) and forests ?

Ahmed : A coastal environment. It is where the land is next to the
(3)

Maged : Thank you, Ahmed.

4 Read the following text and answer the questions below.

There are many types of environments on Earth, and we can use different natural resources in different places. For example, a hot desert is a good place to get solar energy from the sun, and there are large farms with lots of solar panels that can make clean electricity. A coastal environment can get a lot of wind, so some places have a lot of wind turbines in the sea, close to the coast.

In some places, the sea goes up and down throughout the day. This is called a tide. In places where the tides are very big and strong, we can use tidal energy from the moving water to make electricity. Wind and wave turbines work by movement. The wind or water make turbines move, and this moving energy generates electrical energy. You can store this energy, so if the sun isn't shining or the wind isn't blowing, we will still have electricity ! In other places, it is very hot under the ground. These are good places for geothermal energy, as the ground can heat water.

A. Choose the correct answer from a, b, c or d :

1. The moving energy generates energy.
 a. electrical b. solar c. mechanical d. geothermal
2. We can use tidal energy from the moving to make electricity.
 a. sand b. sky c. sun d. water

B. Answer the following questions :

3. What is a tide ?

4. How can we get electricity if the sun isn't shining ?

5 The reader

A Read and write T (True) or F (False).

- | | | |

"Cook book"

Guiding elements :

meal - delicious food - pictures - kitchen - recipes

My mum has a cook book. It has different meals. It has pictures of delicious food. My mum cooks in the kitchen.

120 There are many recipes in the book.

Writing Corner

Mr. Adel Magdi
English Teacher

البراجراف

هـام "Different environments"

In our world, there are different environments like coastal, desert, rural, urban and polar environments. In coastal environments, there are beaches, The Nile Delta and the Red Sea are two examples of this environment. Desert environment is very dry. The animals and plants that live there have to find ways to survive without a lot of water.

"Pollution"

There are different kinds of pollution. Water pollution happens when it is dirty because of chemicals or plastic. Carbon dioxide can be dangerous when there is too much in the air. Emissions that are made by factories, cars and lorries cause air pollution. We should keep the air clean by planting more trees.

"Energy around us"

There are two kinds of energy: renewable and non-renewable energy. Non-renewable energy are like coal, gas and oil. They run out. They pollute the environment. Renewable energy like solar, wind, tidal and geothermal energies. They don't run out. We can get renewable energy from natural resources. They are better than non-renewable energy.

-20-

Writing Corner

Mr. Adel Magdi
English Teacher

“Eid Al-Adha”

Eid Al-Adha usually lasts for four days. It's during the month of Zu Elhijja. Many people sacrifice a sheep and eat some of its meat. They have a dish called fatta. We wear our best clothes and visit our family and friends.

“Ful Medames”

Ful medames is my favorite meal. We use beans cooked with lemon juice, garlic, onion and herbs. It never has any meat in it. We always eat it with bread. I eat it every day.

شام “Sham El-Nessim”

I love celebrating Sham El-Nessim with my family. It is in spring and it is very old. The ancient Egyptians also celebrated it, as a festival of creation and new life. It is always on the same day as Coptic Easter Monday. Because it is the start of spring, the weather is usually sunny and warm. We eat different traditional food like boiled eggs and Fesikh.

مصر “Egypt”

Egypt is a fantastic country to visit. There is so much to see, such as the Pyramids of Giza, the old Luxor Temple, the Red Sea, and of course the River Nile. In all parts of the country, you can see amazing sights, eat delicious food, and meet friendly people.

AL-BAMER - Connect Plus (4) / Second Term

Writing Corner

Mr. Adel Magdi
English Teacher

"Your country's heritage"

A country's heritage is an important part of its identity. Egypt's heritage comes from its history and traditions. Heritage includes art, buildings and objects from the past. People in ancient Egypt built temples. They developed agriculture and some of the first calendars. Egypt is full of historical sites. I enjoy learning about our heritage.

"Farming in the past"

Farming is very important in Egypt. It's an important part of its heritage. The Nile used to flood every year making the soil more fertile. There were three seasons of farming in ancient Egypt which were connected to the Nile. The flooding season when the field was full of water. The growing season when farmers planted crops. The harvesting season when farmers cut the crops.

"Tourism"

Lots of people visit Egypt every year because of its amazing archaeological sites. Tourists want to see the large monuments, temples, and pyramids. Archaeologists have found lots of artifacts such as tools, pottery, vases and masks. Tourists can visit the Pyramids and the Sphinx at Giza. They can see the Step Pyramid at Saqqara. They can visit Qaitbay Citadel in Alexandria. They can visit the Temple of Karnak and the Valley of the Kings in Luxor.

"Artifacts in ancient Egypt"

There are a lot of artifacts in ancient Egypt. For example the Pharaoh Khufu's solar boat. It's called a solar boat because ancient Egyptians believed that it would take the person across the skies after death. The statue of Amenhotep III is the largest statue of a family group. Tutankhamun's mask is very important, too.
