

Unit 10

Our animals

We're going to:

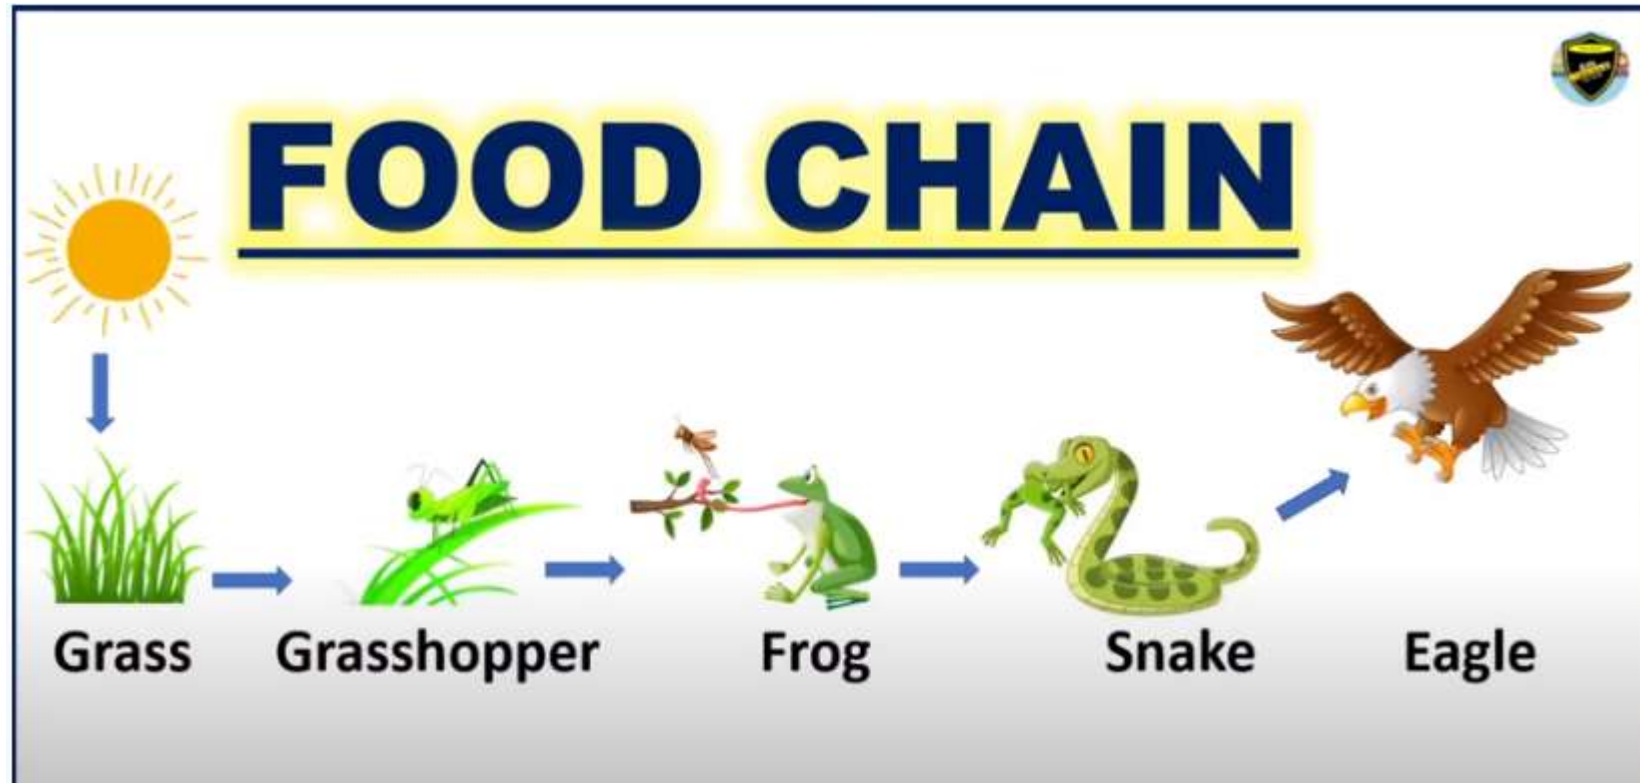

listen and read about animal homes,
and food chains
learn about animal camouflage and
caring for pets

write a leaflet and design a poster about
a zoo/animal park
present information about natural places
in your country

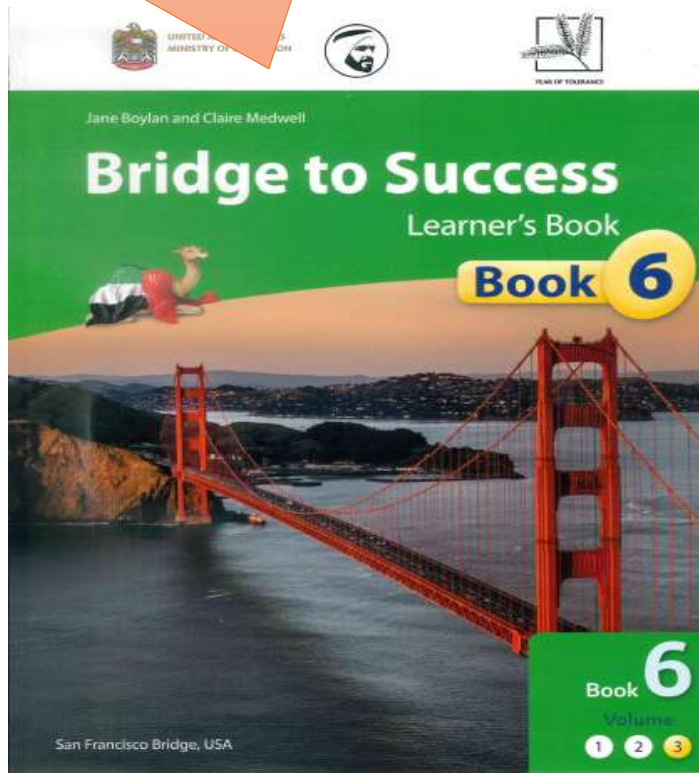

Unit 10 - LESSON 2

Lesson 2 Animal food chains

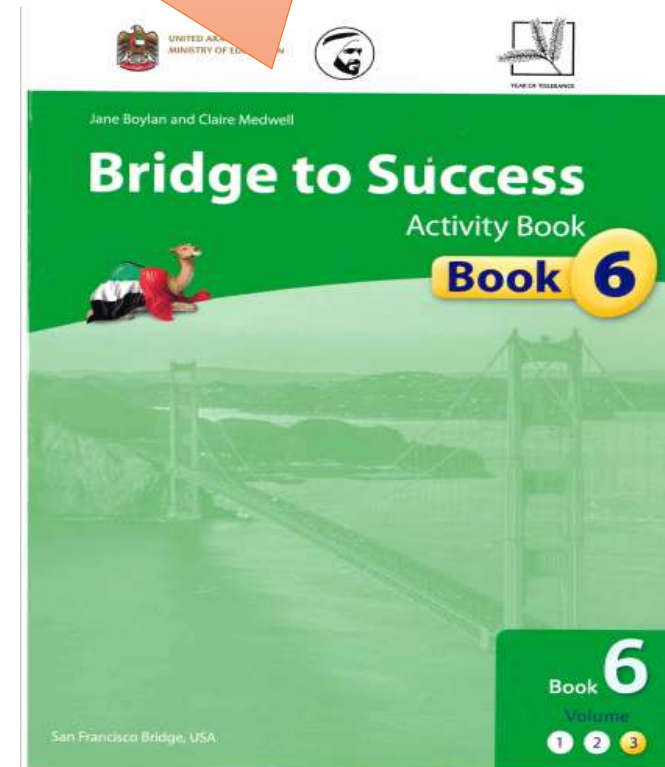

Open on page:

page 116

page 96

My Learning Outcomes

1. To talk about animal food chains.
2. To read and understand a diagram..
3. To write about a simple food chain.

Watch the video. What is a food chain? List an example of a food chain.

Write the answer in the LMS

How Do Food Chains Work?

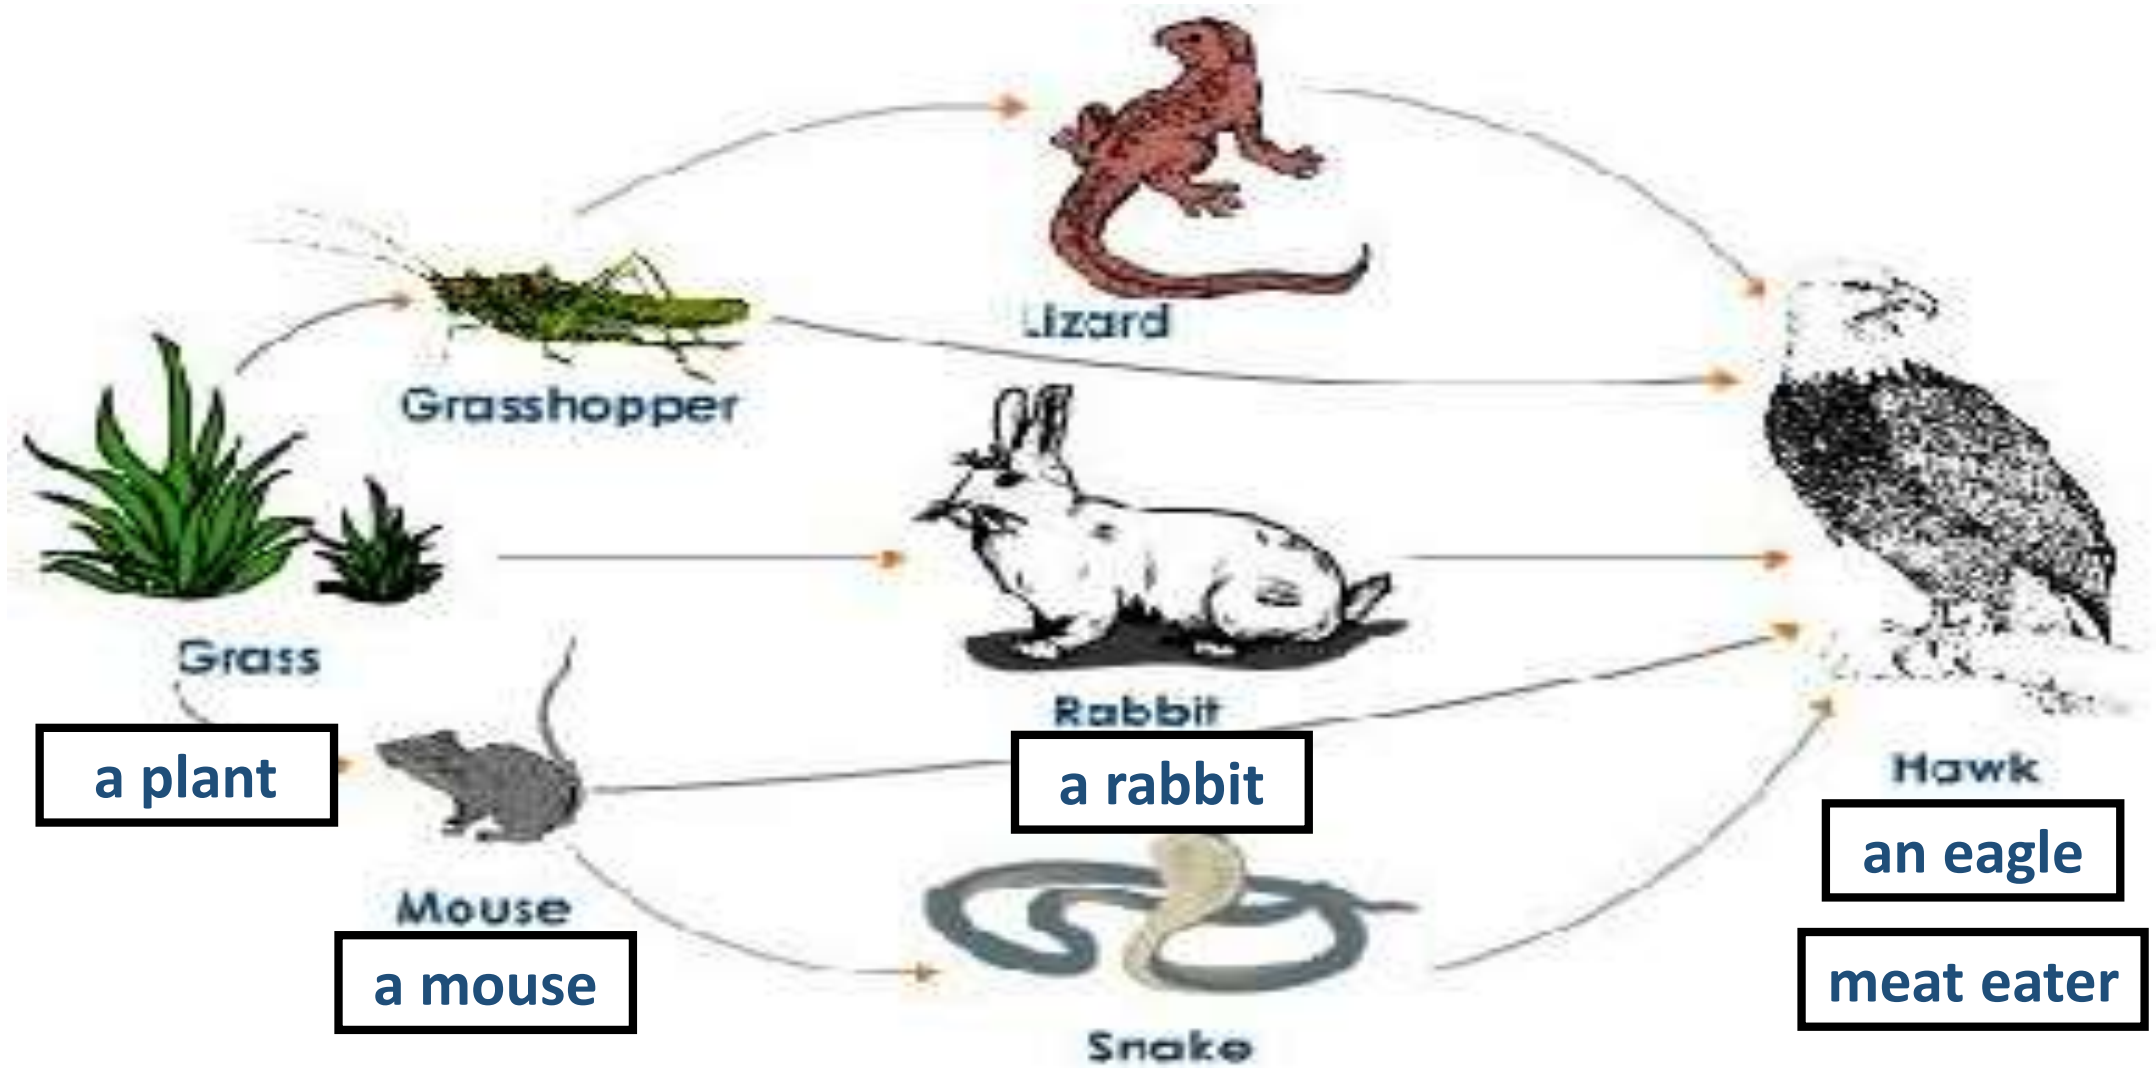

A close-up photograph of a koala clinging to a tree branch. The koala has thick, grey fur and a prominent black nose. The background is a soft-focus green forest. The word "Vocabulary" is written in white, sans-serif font across the center of the koala's chest.

Vocabulary

Key vocabulary:

a food chain

Lesson 2 Animal food chains

1 Talk about it

Look at the food chain below. Can you explain it?

Reading strategy: Interpreting diagrams

Use reading texts to help you understand diagrams and flowcharts.

2 21st Read and talk

Read the text and check your answer to Activity 1.

A food chain shows what each animal eats. It starts with a plant, such as grass.
An animal like a mouse eats the grass. Then an animal like a snake eats the mouse, and a bigger animal or bird, like an eagle, eats the snake.

Some animals, such as rabbits and mice, only eat plants. Can you think of any other animals like this? Other animals only eat other animals, not plants. For example, an eagle eats rabbits and mice. Can you think of any other meat eaters? There are also animals that eat both plants and meat. Can you think of an example?

3

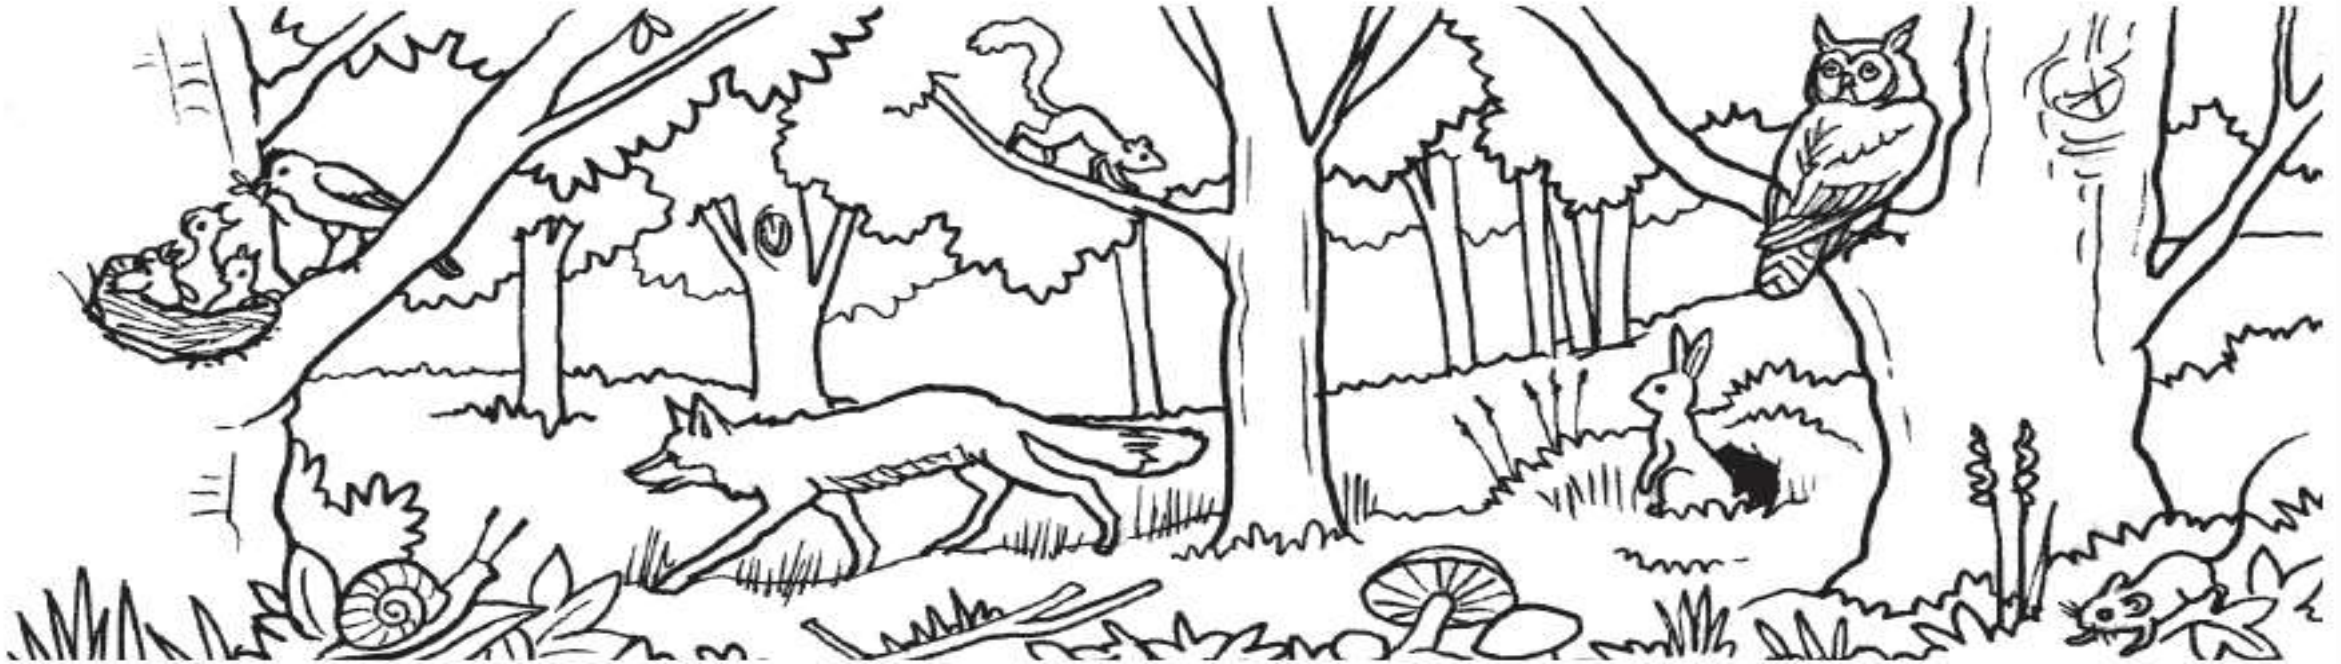

Talk

Choose one of the places from Lesson 1 and draw another food chain. Then explain the food chain to another pair.

- 1 **Vocabulary** Look at the picture. Can you find one animal that only eats meat, one animal that only eats plants, and one animal that eats meat and plants? Write them in the box. Can you think of one more example for each box?

... eats only meat	... eats only plants	... eats meat and plants
Fox	rabbit/snail	bird
owl	mouse/ squirrel	

2  **Write** Put the pictures in order and then write a sentence.

1 The mouse eats the grass and the snake eats the mouse.

2 The clownfish eats small plants and the shark eats the clownfish.

3 The antelope eats the grass and the lion eats the antelope.
