

**A- Read the following text then choose the correct answer a, b, c or d (50 marks)**

Life in the future will be very different in all fields from entertainment to technology. I think that in the future we will have a more comfortable life. This will be obvious in all aspects of life. First, as for education, people will have better education because of technology. E books will replace traditional books, robots will replace teachers, and students will study at home through on-line teaching. So even absent students will learn. Second, health will improve because new medicines will help people get better. Robots will help doctors and sometimes replace them. Add to that, scientists and researchers will find cure to many diseases. Finally, world peace would spread because all of the previous aspects.

1. Entertainment and technology-----in the future.  
a- won't change                      b- will be the same  
c- won't be the same                d- will be worse

a- spread    b- replaced    c- treated    d- improved

**B- Read the following text then write if the sentences below are true or false: (50 marks)**

Marie Curie was a poor girl. She lived in Poland. she loved nothing better than reading books. Marie's mother died when her youngest daughter was only ten. Her father was a teacher who couldn't afford to earn enough money. Marie and her older sister, Bronya, studied in France at the Sorbonne where Marie met and married to Pierre Curie, a young scientist who had already earned respect. Together they made their experiments in an old wooden house. Then they found something which they called radium. The Curies were given the Nobel Prize for their great discovery. Pierre died suddenly. In 1911 she received another Nobel Prize. It is the only time in history that two Nobel Prizes have been given to the same person.

6. Marie wasn't interested in reading books.
7. Marie Curie and her sister are orphan girls.
8. Marie's mother died when Bronya was only ten years old.
