## 2 - Reading Comprehension)

### Ocean animals

Ocean animals are my favorite kind of wildlife. They have body parts and skills to make it easy for them to live in this habitat.

I think penguins are very cute animals. A penguin can't fly like other birds because it doesn't have wings. A penguin has short but strong black flippers which it uses to swim very fast. A penguin can only swim a bit faster than a walrus. The walrus is extremely ugly. I think it looks very scary with its huge white tusks. It uses its whiskers to find food in the sea. I think it eats mostly fish, but it might eat penguins as well.

Many sea animals and fish use camouflage to hide from other animals that want to eat them. I think the best camouflage is used by the cuttlefish. It uses its skill of changing its color to look like the rocks or sand. It can be fun to study these strange animals..

Answer the following questions:

1. Why can't a penguin fly?  
A) Because it doesn't have wings. B) Because it is small.  
C) Because it has a big head.
1. How can a penguin swim?  
A) With its nose. B) With its flippers. C) With its scales.
1. A walrus uses its whiskers to-----  
A) To keep its baby safe. B) To swim in the sea.  
C) To find food in the sea.
1. What do animals use camouflage for?
