I- Read the following text then choose the correct answer A, B, C, or D: (50 marks)

Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing. Success, by definition, means to accomplish your goals. Some people define success by measures such as wealth, position or status and one's capabilities. It is also believed by many people that a successful person must be rich, but in many cases, money cannot buy you success. In fact, there are some factors which help us be successful.

Start by setting your goals. Having a goal is an essential thing, but it should be a smart goal which is achievable. Timing also is a crucial ingredient to success. Furthermore, one needs confidence to be successful. He / She has to start with smaller tasks that have a higher chance of success to build up confidence. Parents should help their young children to build up confidence and become successful and happy in their life. They should discover at an early age the talents of their children and help them to grow their gift and take care of their needs and interests.

Actions are louder than words. Nothing happens until you take action. To be successful, you have to do what successful people do. All highly successful people are highly action-oriented people.

In ancient times, civilizations like Egypt and Mesopotamia used herbal remedies, surgeries, and spiritual rituals. Ancient China developed complex medical systems like acupuncture and herbal medicine, while Hippocrates, a Greek physician, introduced the idea that diseases had natural causes. During the Middle Ages, medical knowledge was preserved and expanded by Islamic scholars. Ibn Sina's "The Canon of Medicine" became a crucial medical reference in both the Islamic world and Europe. In Europe, medical advancements slowed during this period. In the 20th century, the discovery of antibiotics like penicillin by Alexander Fleming changed the treatment of bacterial infections. Vaccines eradicated or controlled many deadly diseases, improving public health. Medical technology advanced with the development of X-rays, MRIs, and other diagnostic tools. Most people think that education is limited to schools only, but the truth is that there are lessons that we can only learn from life, and they may be more important than **those** learnt at schools. Life lessons are sometimes painful before they are acquired, and in order to avoid this, we must benefit from the experiences of others. We shouldn't pay too much attention to trivial things that are not important. Since life is so unpredictable, we must not live on expectations only and meet everything new in life with optimism.

We must be confident of ourselves, but that does not mean we talk about our accomplishments all the time, as this leads to vanity. Human relationships are also important because without love and support from family and friends, you will not achieve success. Man by nature makes mistakes, so be tolerant and seek excuses for those around you, and if someone comes to you with an apology, you should accept it. The pursuit of success will make you succeed in the end, no matter how long the period is, but keep trying. Failure is a great teacher in life. It teaches us humility and how to correct our course of life.

1. According to the text, learning from others' mistakes helps us life's painful lessons.
a. enjoy b. accept c. approve d. escape
2. Due to the uncertainty of life, we must
a. depend on predictions b. survive on pain
c. wait for things to happen d. have clear plans
3. Being tolerant means when making mistakes.
a. forgiving others b. investigating others

In ancient times, people used to cure sickness by using plants, herbs and other materials. Medicine was magical and mythological, and diseases were attributed mostly to the supernatural forces. The practice of medicine during the Middle Ages was empirical. At that time, cures continued to be a mixture of superstitions, religion, herbal remedies, bleeding and purging; people were bled to reduce inflammation. Moreover, medical schools were established, but most people never saw a doctor because of the high-cost treatments. Instead, people were treated by local wise people or by priests, or barbers. Around the 16th century, medicine witnessed groundbreaking developments such as vaccination, human anatomy, surgery and microbiology. Modern medicine started to emerge in the late 18th century and therefore, there were many improvements on medical tools and machines, especially after the Industrial Revolution. In the 1800s, physicians learned that illnesses were caused by germs and hospitals began to focus on keeping clean to keep germs away. I- Read the following text then choose the correct answer A, B, C, or D: (50 marks)

In ancient times, people used to cure sickness by using plants, herbs and other materials. In countries such as Greece, India, China and others patients were treated mostly in temples. The practice of medicine during the Middle Ages was empirical; it focused mainly on curing illnesses rather than discovering their causes. At that time, cures continued to be a mixture of superstitions, religion, herbal remedies, bleeding and purging; people were bled to reduce inflammation, which was then thought to be the root of all diseases. Moreover, medical schools were established, but most people never saw a doctor because of the high-cost treatments. Instead, people were treated by local wise people or by priests, or barbers. Around the 16th century, medicine witnessed groundbreaking developments such as vaccination, human anatomy, surgery and microbiology. Modern medicine started to emerge in the late 18th century and therefore, there were many improvements on medical tools and machines, especially after the Industrial Revolution.

II- Read the following text then choose the correct answer A, B, C, or D: (50 marks)

Success is a powerful concept that holds different meanings for individuals. It requires tough dedication and hard work to succeed and accomplish one's life goals. Dreaming of success without taking action holds no value or sense of achievement. People must stay committed to their goals and have the courage to overcome any obstacles along the way. While some equate success with financial wealth, its accurate measure lies in realising one's dreams and reaching their objectives. For instance, becoming a doctor requires determination and hard work rather than just wishing for it. However, knowing the right path to follow may be challenging. There are no shortcuts to success; it takes honesty, integrity, and strenuous effort. It may take time and hard work to find solutions, but with determination in the right direction, **they** are always attainable. To succeed, one must push through all obstacles while staying resilient enough to move forward despite hardships.

6. To achieve your goals, you need to
a. dream a lot b. wish to be successful
c. decrease your efforts d. defeat all hurdles
7. If you don't take an action towards your dreams, ...
a. you'll succeed in the end b. nothing will happen
c. you'll be wealthy d. you'll stay committed to them
8. According to the text,
a. success is easily achievable
b. nobody can succeed without determination and hard work.
c. there are many short ways to success
d. give up when you face an obstacle
9. The pronoun "**they**" in bold refers to
a. shortcuts b. solutions c. dreams d. goals
10. "a quicker way of getting to a place" is the definition of
