Sky walkers

A selfie is a self-portrait photograph, typically taken with a digital camera or a smart phone, which may be held in the hand or supported by a selfie stick. Selfies are often shared on social media services such as Facebook, Twitter, Snapchat, and Instagram. When Marat Dupri bought his camera, he decided he would shoot nice landscape pictures. Feeling it might not have been the most original idea ever, he started to spice things up by climbing up higher and higher structures, using no safety equipment at all. Marat Dupri earned the name of "The sky walker"; and quickly, dozens of people followed his footsteps, trying to get the most incredible views. Then most people began to take dangerous selfies while travelling. They began scaling skyscrapers, cliffs and bridges to capture a photo to remember. Almost everyone has taken out their smart phones to snap a photo of themselves. But many studies showed that when taken in dangerous circumstances, selfies can cause death. This Instagram shot was taken by Angela Nikolau, from Tianjin, China. Some might even say "It's too dangerous". How did she even get there!? This is also one of many pictures snapped by Daniel Lau, one of the world's most well-known photographers. In this photo, the skyscrapers of Hong Kong set the shocking scene. At last, we can say that this kind of art seems to have been lost somewhere between the ground and the sky. Be careful not to spoil this art and use it for lovely memories and beneficial issues. Take care of yourselves and other people around you. Putting yourselves at risk is useless; it sounds to be a crazy idea. Our lives are very precious and valuable. We shouldn't lose them by irresponsible behaviours.

ترجمة النص :

صورة السيلفي هي صورة شخصية، يتم التقاطها عادةً بكاميرا رقمية أو هاتف ذكي، يمكن حمله في اليد أو دعمه بعصا سيلفي. غالبًا ما تتم مشاركة صور السيلفي على خدمات الوسائط الاجتماعية مثل Facebook و Twitter و Instagram و Snapchat.

عندما اشترى مارات دوبري الكاميرا الخاصة به، قرر التقاط صور جميلة للمناظر الطبيعية.

وشعر أن هذه الفكرة ربما لم تكن الأكثر أصالة على الإطلاق، فبدأ في إضافة بعض الإثارة من خلال تسلق هياكل أعلى وأعلى، دون استخدام أي معدات أمان على الإطلاق.

اكتسب مارات دوبري لقب "المتجول في السماء"؛ وسرعان ما تبعه العشرات من الأشخاص، محاولين التقاط أكثر المناظر روعة.

ثم بدأ معظم الناس في التقاط صور سيلفي خطيرة أثناء السفر. بدأوا في تسلق ناطحات السحاب والمنحدرات والجسور لالتقاط صورة للذكرى.

لقد أخرج الجميع تقريبًا هواتفهم الذكية لالتقاط صورة لأنفسهم. ولكن أظهرت العديد من الدراسات أنه عند التقاطها في ظروف خطيرة، يمكن أن تسبب صور السيلفي الموت. التقطت أنجيلا نيكولاو، من تيانجين، الصين، هذه الصورة المنشورة على إنستغرام. وقد يقول البعض "إنها خطيرة للغاية". كيف وصلت إلى هناك؟!

هذه أيضًا واحدة من الصور التي التقطها دانييل لاو، أحد أشهر المصورين في العالم. في هذه الصورة، تشكل ناطحات السحاب في هونغ كونغ مشهدًا صادمًا.

وأخيرًا، يمكننا القول إن هذا النوع من الفن يبدو وكأنه ضاع في مكان ما بين

الأرض والسماء. احرصوا على عدم إفساد هذا الفن واستخدامه لذكريات جميلة وقضايا مفيدة. اعتنوا بأنفسكم وبالأشخاص الآخرين من حولكم. إن تعريض أنفسكم للخطر أمر لا طائل منه؛ يبدو أنه فكرة مجنونة. حياتنا ثمينة وقيمة للغاية. لا ينبغي لنا أن نفقدنا بسبب سلوكيات غير مسؤولة.
