Our life is a short journey and every day we learn many important lessons that we must benefit from in order to achieve more success . Most people think that education is limited to schools only, but the truth is that there are lessons that we can only learn from life, and they may be more important than those learnt at schools. Life lessons are sometimes painful before they are acquired, and in order to avoid this, we must benefit from the experiences of others. We shouldn't pay too much attention to the trivial things that are not important and waste our time and effort. Since life is so unpredictable, we must not live on expectations only and meet everything new in life with optimism and positive thinking. There is no word more boring and monotonous than the word "I". We must be confident of ourselves , but that doesn't mean we talk about ourselves and our accomplishments all the time, as this inherits vanity.
