A poor family was living happily until the son felt severely ill. It was clear from the medical analysis and laboratory tests that he had got a tumour in his head. "Your son's condition is critical. He needs a miracle to survive.", the doctor said. After she had heard the doctor's words, the little daughter rushed to the nearest pharmacy with the only pound she had in her money box. "Give me a miracle, please," she said putting the pound on the table. The pharmacist was busy talking to his brother. After a while he replied, "who told you I sell miracles?" She looked helplessly watching in despair. Suddenly the pharmacist's brother knelt asking her, "tell me, sweetie, why do you need a miracle?" Without thinking, "I don't know, the doctor said that my brother needs a miracle for an operation not to die. "Is this pound enough?" "One pound is exactly enough", he answered with a big smile and a tender voice. "Could I see your brother?" This man was Carlton Armstrong, the famous nerve surgeon who performed the operation successfully and took one pound for it. Later, he framed the pound with a sentence below, "This pound is the price of a miracle taken from a girl, on the edge of innocence."
