Osama's class have been learning about the environment in their science lessons. Students have been studying the effects of pollution from vehicles. They also have been reading about how poisons from factories pollute rivers and seas. They all agree that everyone should do more to help the environment. Their teacher, Mr Ahmed, asked them to think of things that they can do. The students made suggestions. Samir said that people should walk more and use their cars less. This would keep the cities cleaner and people would be healthier. Maher said they should build car parks outside the city center where people could leave their cars. They could then walk the rest of the way into the city. Osama suggested having a bottle bin in the school where students could put their empty plastic bottles. **These** could be collected and recycled. Mr. Ahmed thought these were very good ideas and said he would pass them on to the head teacher.

**Life in the future will be different from now. Everything will change. I think houses will be different with a lot of gardens on the roofs. Perhaps, some people will live in houses under the seas. There will be more robots. Robots will help people at home as they will do all the housework. That's why people will have more free time for leisure and entertainment. People won't go to work as they will work from home. Perhaps people will travel fast in flying cars. I predict there will be trips to space. People will probably be able to explore space. Scientists may invent other flying machines to help ordinary people to travel into space. Mobile phones will get smaller and faster. Students will learn on computers at home. The world will be cleaner and healthier. We will use clean energy from the sun and wind. We will plant more trees so that there will be less pollution. Life will be easier and more comfortable thanks to future inventions and technological advances.**

**“Your favourite animal.”**

**There are many animals in Egypt. I love animals very much. My favourite animal is the lion. Lions are big, strong animals which belong to the cat family. They live in Africa and Europe. Some of them live in India. They live in the grasslands. They feed on meat. They are meat-eaters. They have very sharp teeth so they are able to hunt other animals for living such as zebras and giraffes. I admire lions because they are proud animals which look after their families. Young lions are called cubs. It is known that the lion is the king of the forest. Lions represent strength and pride. I love watching them in the zoo and on TV.**
