

تعابير الصف الثاني الثانوي
الفصل الدراسي الأول
حسب المواضيع المقررة في كتاب الطالب والنشاط

Unit 1

Write about comparing the two ways of Socializing

Socializing can be compared by in-person interactions, which use all senses and body language, against the convenience of online socialization. While in-person interaction has deeper, more immediate connections and can improve feelings of well-being, online communication offers a global reach and a space to build confidence and connections beyond geographical limits.

Compare talking on cell phones and sending text messages

Calls are best for complex, urgent, or sensitive topics as they convey emotion and build a personal connection. Texting is better for quick, non-urgent information and convenience, allowing the recipient to respond later, but it risks miscommunication due to the lack of vocal tone.

Unit 2

Write a text describing a crime

A burglary occurred Tuesday morning . A tall, dark-clothed individual, wearing a ski mask, entered through the rear kitchen window. The thief went to the bedroom closet, forced open a small safe, and stole a jewelry box The only evidence left behind was the scent of stale pipe .

Write about the saying " Crime Doesn't pay"

The saying "Crime doesn't pay" is a stark reminder that illegal acts inevitably carry a profound and lasting cost. While a criminal might temporarily acquire wealth or power, the true penalty is the loss of personal freedom and the destruction of one's reputation and social standing,

Unit 3

Write about place in your country that you plan to visit

Al Baha is a city in the Sarwat Mountains of southwestern Saudi Arabia, nicknamed the "Garden of the Hijaz." It is known for its temperate climate and lush forests like Raghdan, making it a popular tourist escape. The city's cultural heritage is highlighted by the Dhi Ayn "Marble Village" and ancient stone towers.

Write about advantages and disadvantages of ecotourism

Ecotourism is characterized by its commitment to environmental conservation and the well-being of local communities. However, it faces significant challenges, including environmental degradation from overcrowding, cultural erosion due to the commercialization of traditions, and economic disadvantages caused by profit leakage.

Unit 4

Write about a book review

The " Silent Cartographer " is a historical novel about an artist who draws a map in the 16th century . The map was a dangerous road for the army to conquer another country through the sea . The novel is amazing to read and full of masterful plot and surprising ending.

Unit 5

Write about an unusual job

White hat hackers, also known as ethical hackers, are people who use their programming skills to help protect online systems from attacks. White hat hackers play an important role in keeping sensitive data safe. This is particularly important for companies that do things like private messaging, banking, or online shopping.

Write about your life goals

One of my life goals for the future is to be happy with my job. It is very difficult to choose what career is the best for you. I am interested in many different types of study. However, I choose to become a nurse in five years from now. I choose this career path because I do like to help other people. I have always had a heart for people who are less fortunate and weak. I want to cure their wounds and sickness also I want to prevent their disease and pain that they experience .

Unit 6

Write about how to make your neighborhood greener

Green Is Good

to make our neighborhood better , we can chart out the things we can do on regular basis. We should stop using polythene bags and switch to paper bags. On weekly basis we should get the drains cleaned, and plant at trees in our locality. On monthly basis, we can hold a community gathering and take initiatives to make our surroundings clean, pollution free and environmental friendly.

Write about where your food comes from

A significant portion of our food comes from agriculture, which involves cultivating crops and raising livestock. Farmers play a crucial role in this process by planting, nurturing, and harvesting various crops. By understanding the origins of our food, we can make conscious choices that support sustainable practices. Opting for locally-sourced and diverse foods not only benefits our health but also contributes to the well-being of the planet.
