**1- Write a paragraph describing the process on how to repair a scratched CD using toothpaste.**

**Repairing a scratched CD**

No doubt that all of us have important CDs and we don't want to lose the data on them. So, this is the description of how to repair a scratched CD using toothpaste. First, wash the CD with warm water. The water should be between 10-20 C. Then, squeeze some toothpaste on a clean piece of cloth. After that, use the cloth with the toothpaste to wipe the CD. Make sure that you wipe from the centre to the edge. Pay attention not to make circular motions. Next, wash the toothpaste off the CD with warm water between 10-20 C. Finally, dry it carefully using a clean piece of cloth.

- ***Sometimes, you need to repair a scratched CD. If you want to repair it, you should follow these steps.***
- ***First, you have to wash the CD with warm water between 10 C and 20 C. Then, squeeze a little toothpaste on a cloth. Next, wipe the CD from the centre to its edge. Do not wipe it in a circular motion . After that, wash the CD off with warm water .***
- ***Finally, dry the CD carefully with a clean cloth. Now, you can use the CD that you cleaned. This is a clever idea to clean a scratched CD that you can tell your friends about.***

## Writing

### Describing a process ( the steps of doing or making something)

I am going to tell you how to create a Twitter Account. You need to follow some steps.

Firstly, go to the Twitter homepage and click on the button "Sign Up Now." Then begin the sign-up information by providing your username and date of birth. Your contact information and date of birth will not be public. The next step is to choose how you want to view ads. Click on the button "Next."

**After that** click on the button "Create Account." A verification code will be sent to your email address or phone number. Enter the verification code once you receive it. Create a password. It will need to be at least six characters. Then add your picture. at the top of the settings page.

**Finally,** complete the rest of your profile information. Now you have a Twitter Account Then you can begin communicating with your friends.

## How to create a Social Media account.

**To create social media account, you should have an Email. Then, download your Application from the store. And do the following steps: Firstly, sign up to the application by adding first name, last name and date of birth. Secondly, create your username and password. Thirdly, complete your personal information by uploading your profile picture. After that, confirm your email address to finish creating your account. Finally, inform your friends about your new account and ask them to follow your account and send them follow request. And enjoy using your account.**

## How to create a ..... account.

Have you ever tried to create a/n .....account? Do you think it is a hard job? Don't worry about that. Just follow the next steps and you will find it as easy as a piece of cake.

First download the Instagram app from the App Store or Google Play Store. Then, tap the app to open it. Next, Tap Create New Account. Then, enter your email address or phone number and tap Next. You can also sign up using with your Facebook account. After you register with your email or phone number, create a username and password. The next step is to fill out your profile info and then tap Next. Finally, log in your Instagram account and enjoy it.
