d. hunger will end.

5. "....." is to take the place of.

- a. improve b. fight c. grow d. replace

B- Read the following text then do the tasks below:**(50 marks)**

By the end of this century, there will be permanent settlements that will allow people to lead a normal life in space. Hundreds of astronauts are going to work and live in the space station, which will take ten years to build. In some way, living on the moon will be easier than living in a space station and it will be cheaper because people won't bring everything from Earth by rockets. The space city will be like a gigantic glass wheel that will contain buildings, factories and special meeting places. Inside it, people won't live differently from small towns on Earth. It will have air so that inhabitants can breathe and they won't need to wear special space suits inside the buildings. Scientists also believe that they will obtain water from a large ice lake on the moon. Food won't be a problem, as settlers won't need to eat. Instead, they will take a pill three times a day.

Write True (T) or False (F):

6. Life in the space city will be difficult. ()

7. Permanent settlements will allow people to lead an ordinary life in space. ()

8. People in the space city will get water from a fresh river on the moon. ()

Answer the following questions about the text:

9. How many astronauts are going to live and work in the space station?

.....

10. What will people on the space station eat?

.....
