Reading

(1) We can recycle computers, tablets, mobile phones and cars. Recycling factories break them into small pieces and then other factories make new things. It's very important to recycle these things because throwing them is bad for the environment.

(2) Batteries and medicine have dangerous chemicals, so when we throw them in our rubbish bins they pollute the soil and the water.

(3) Moreover, don't throw your old sport shoes away! Special factories can recycle them to make sports fields for children all around the world.

1. What is the text MAINLY about?

- A. phones
- B. recycling
- C. factories
- D. medicine

2. What does the underlined word (pollute) in paragraph (2) mean?

- A. dirty
- B. clean
- C. plant
- D. use

4. Why is it important to recycle?

.....

5. What happens if we throw batteries and medicine in our rubbish bins?

.....

6. What can factories do with old shoes?

.....
