

An email giving advice.

Dear Ali,

I hope you are well. Firstly, I think you should explain to your coach that you like football, but you like art too. You should tell him that you can try to do both. It isn't fair to give up the art class and you like the idea of becoming an artist one day. I'm sure your coach will understand. You should try to combine both hobbies and see if it works. I hope everything goes well.

Bye for now,

Omar

A description of a film

Smart and Tech (2017) is an animated film. The director is **Jason Fox**.

The two main characters are **Mary** and **Linda** who gave life to the film with their voices. **Mary** and **Linda** were happy when their teacher tells them about the school competition for the best robot. You'll have to watch the film. The film is about friendship. The film is suitable for the whole family. The plot is nothing special, but there's an interesting ending. Finally, the special effects and the soundtrack are amazing. Don't miss it.
