إجابة موضوعات التعبير

(1) Topic 1: Energy

Do you think we can depend on oil for so long? In fact, to use alternative sources of energy is to save our life. I think it's time now to use them.

There are many benefits of using alternative sources of energy. First, they are clean sources and don't pollute the environment. Also, they are renewable and infinite sources. In addition, they are cheap and available everywhere. Besides, they save the animals' habitat. Moreover, using them can help in creating jobs and boosting the economy.

Many ways can be used to reduce the energy used nowadays. We can turn off the appliances we don't use. Also, we can use energy-saving light bulbs. In addition, we can reduce the amount of water we use in our daily needs. Moreover, we can use smaller cars or use public transport.

In conclusion, to save our planet, it is a must to use alternative sources of energy. It is an urgent call we all must respond to.

Topic 2: Modern Technology

Have you ever imagined our life without technology? Technology is very important in our life. It has helped us a lot.

There are many examples of modern inventions. First, home appliances help us a lot. For example, we use fridges, TV sets, radio, laptop, mobile phones and microwaves. We have many modern ways of transport that help us to go everywhere. Doctors have many medical devices that help them.

Modern inventions have many advantages. They save our time and effort.

Also, they make life easier. Furthermore, they make our life more comfortable.

Finally, I think technology has changed our life greatly. It has made the world a small village. Can you live without it?
