**A. Read the following text then choose the correct answer a, b, c or d: (50 marks)**

Some people believe that autonomous vehicles will cause many problems.

First, driverless cars will increase unemployment. Thousands of drivers will lose their jobs if autonomous vehicles are allowed to take over the roads. The increase in unemployment could cause serious problems.

Second, companies and governments will lose money. For example, insurance companies now get about fifty percent of their income from car insurance. Governments and cities, too, will lose much money from parking, speeding fines and petrol taxes.

In conclusion, it's possible that autonomous vehicles will not benefit society if they are introduced too quickly.

1. Driverless cars will increase .....

**a. parking b. pollution c. taxes d. unemployment**

2. From the text we understand that .....

**a. Driverless cars are bad for the environment.**

**b. Insurance companies will multiply their profits.**

**c. Parking brings money to governments.**

**d. Driverless cars will change our lives for the worse.**

3. Insurance companies now get ..... of their income from car insurance.

**a. twenty % b. half c. 75 percent d. quarter**

4. Many drivers will lose their jobs if autonomous cars are allowed to ..... the roads.

**a. lose b. change c. take over d. control**

5. "....." means money paid as punishment.

**a. insurance b. unemployment c. fine d. vehicle**

**B. Read the following text then do the tasks below: (50 marks)**

When we think about the future, we tend to assume that most things will stay the same. This is almost never the case.

Some recent researchers have suggested that we need to think about the way we imagine future cities, and to focus on some forms of alternative energy such as solar power, wind power, and water power which lead to environmental sustainability.

We may want our future cities to prioritize environmental renewal. We need to prevent environmental degradation and stop the expansion of deserts. Future cities can collect water and use solar power to irrigate the dry land. Future cities should be surrounded by rivers and provided with renewable energy resources and green vehicles heading towards more ecological forms of public transport.

**Write True (T) or False (F):**

6. We should expand the deserts to take care of our environment. ( )

7. In future cities, people need to grow plants by collecting water and using our imagination. ( )

8. Green vehicles are environmental friendly means of transport. ( )

**Answer the following questions about the text:**

9. What kind of energy is water power?

.....

10. How will people irrigate the dry land in future cities?

.....
